

**In the Whole Malignant Catalogue** Of diseases, there were none which, previous to the discovery of Hostetter's Stomach Bitters, offered more formidable resistance to the old-fashioned modes of treatment than the group of maladies which, under the collective name of malarial disease, afflicted entire communities that suffered hopelessly. Chills and fever, dumb ague, acute chills and bilious remittent were once regarded as well nigh incurable. Now it rejoices the hearts of thousands who reside in districts periodically subject to the visitation of malaria, to feel certain defense against the scourge, a sure means of expelling its poison from the system. To the settler in the far West, the new emigrant laborer, and to travelers and tourists by land and sea, the possession of this pleasant safeguard is a guaranty of safety from diseases which they might vainly seek from any other source.

**Merit Will Tell.**  
Was never better demonstrated than when "Fryer's Abietene Remedy" were awarded diplomas at the late California State Fair at Sacramento and at the Mechanics Institute at San Francisco. W. P. Fryer is agent for these celebrated "Abietene Remedies" and he offers to return your money if they do not give satisfaction. In buying, be sure the fac-simile signature of D. F. Fryer is on each, as none are genuine without it.

When baby was sick, we gave her Castoria, When she was a child she cried for Castoria, When she became a wife, she clung to Castoria, When she had children, she gave them Castoria.

Pinniger, Reno, Nev.

**Brace Up.**  
You are feeling depressed, your appetite is poor, you are bothered with head ache, you are drowsy, nervous, and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very cheap, but which only stimulate you for an hour, and leaves you in worse condition than before. You want a medicine that will purify your blood, start healthy action of liver and kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitter and only at a bottle at S. J. Hodgkinson & Co's Drug Store.

## SUPREME COURT OF NEVADA.

**Philip Reese, Appellant,**  
vs.  
**James H. Kinkead, Executor, etc., et al., Respondents.**

(By LEONARD, C. J.)  
This is an appeal from an order denying plaintiff's motion for a new trial in an action to enforce an alleged vendor's lien. Defendant, Kinkead, is the executor of the last will and testament, and estate, of R. H. Crocker, deceased, the grantee mentioned in the deed of conveyance, and the other defendants are legatees and heirs-at-law of said Crocker, deceased, who claim an interest in the real estate upon which the lien is claimed. "Said conveyance was not made for any good or valuable consideration, but with intent and for the express purpose to hinder, delay, and defraud the creditors of the said Philip Reese, of their lawful suits, claims, and demands at the time due and owing by the said Reese, defendant, and further avers that, at the time said conveyance was made, he was the express agreement that said R. H. Crocker should not pay any sum of money in consideration thereof."

1. The first assignment of error is that, "the court was in admitting the letter offered by the defendant over the objection of the plaintiff." The letter from R. H. Crocker to Philip Reese, and it was offered in support of the assertion in the answer, and one of the defenses the defendant made by the conveyance to Crocker was made for the purpose, and with the intent to hinder, delay, and defraud the creditors of said Reese.

The court overruled plaintiff's objections and the letter was admitted in evidence. No exception was taken to the Court's ruling and it follows, therefore, that we cannot consider the admission of the letter as error. 2. The finding of fraud, and the entry of judgment in favor of defendants, on the ground of fraud, are also assigned as errors, for the reasons stated above, and the admission of the letter in evidence, and the further reason that there was no evidence showing or tending to show that the plaintiff was in debt at the time of his conveyance to Crocker, with the exception of the demands upon which Crocker was liable as surety for him.

It is undoubtedly the general rule that the findings and judgment of the Court must be warranted by the pleadings; but it does not follow, necessarily, that the pleadings in this case do not justify the findings and judgment. We have thought much of the answer setting up fraud ought to have been sustained, if one had been introduced. After trial, upon the merits as though the issue of fraud had been properly made, and was tried upon its merits. Under these circumstances an objection to the answer, upon the ground that it does not contain a statement of the particular facts and circumstances constituting the alleged fraud, cannot be entertained by us.

See also Crane vs. Hunter, 28 N. Y., 365. It is a true statement of the facts in this case, on the ground that the issue of fraud had not been made, for the reason that the facts showing fraud had not been set up in the answer—but failing to except the Court's ruling on the merits, if any, waived, the objection went for naught, and the result is the same as though no objection had been made.

We express no opinion upon the sufficiency of the answer upon the question of fraud, except to say that upon the facts shown by the record it sustains the finding of fraud, and the judgment in favor of defendants that ground.

Counsel for appellant is mistaken in claiming that there is no evidence showing or tending to show that plaintiff owed debts other than the demands upon which Crocker was liable as surety for him. The sister of Crocker testified as follows: "I don't think my brother was on the note from the Kinkead estate and trouble; was another note I had in mind. Mr. Crocker said that Mr. Reese was indebted to the parties in Virginia who were, in all probability, proved against him, and that the deed was made to prevent that, to protect my brother."

In view of the letter and other evidence admitted in the case, we cannot say that the Court's ruling was error. The most favorable view that can be taken of the evidence is that there was a conflict. The order overruling motion for new trial is affirmed.

## Make No Mistake.

By dispelling the symptoms so often mistaken for consumption, **SANTA ABIE** has brought gladness to many a household. By its prompt use for breaking up the cold that too often develops into that fatal disease, thousands can be saved from an untimely grave. You make no mistake by keeping a bottle of this pleasant remedy in your house. **CALIFORNIA-CATARRH-CURE** is equally effective in eradicating all traces of Nasal Catarrh. Both of these wonderful California remedies are sold and warranted by Osburn & Shoemaker wholesale and retail agents. \$1.00 a package, 3 for \$2.50.

**Give Them a Chance!**  
That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well. Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is but one sure way to get rid of them. That is to take Roscoe's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed us, you may depend upon this.

THURSDAY, SEPTEMBER 15, 1907

AGRICULTURAL interests for the next two weeks will center mainly in the State fair. With many farmers the fair is simply a great holiday recreation, giving them the opportunity to break away from the dull routine of the farm and see about them, and see their friends and acquaintances who live at a distance, and in general have a good time. There is, however, every year an increasing number who, whilst not forgetting the recreation, combine with it hard study. They regard the fair as a great school in which they can study the animal forms, and by comparing this breed with that, and this herd with that, and this individual with that in each herd, form both an ideal type which they aim to realize in their own herd, and settle down on lines of breeding and methods of feeding that will enable them to realize that ideal. The fair is a good place to get rid of "pedigree craze." Constant association with breeders for a year and listening to their talk about "clean pedigrees" and "rich breeding," and all that, gets the mind a little off balance, or rather causes the young breeder to attach too much importance to some strains and too little to others. At the fair get as close as you can to the ring, and notice the decision of the expert, and then go round and see what is the breeding of the animals that have borne off the ribbons. The fair will give a fine opportunity for studying the essential difference between the milk breeds and beef breeds, a difference not merely in form but in temperament. The form is clear to the most careless observer, the temperament only on study. Notice the light foreshoulders on all the milkers, whether Jersey or Holstein; notice also the heavy foreshoulders of the Galloways, Polled Angus, the Herefords, and beef Shorthorns. Then notice the wide pelvis, the high-reaching and forward-reaching udders of the milkers of all breeds, and the lack of this in the beefers. This is but one of the thousand things to be learned at the fair. The same lines of investigation may be pursued in the line of horses, of hogs, of sheep, of grain and fruits. The State fair is a great object lesson, kindergarten and college and university all in one, to the man who has "eyes to see," and "ears to hear." Therefore, come to the fair, but don't try to see everything. Make up your mind first what you will study, and then resolutely study that and nothing else.

SOME time ago we said that before fair week there should be an organization of Reno's business citizens. We said as much that in case of the failure of others to do so we would take the initiative. For assuming so much we were styled as tenderfeet, having, it was alleged, lived but two months in Reno. We recognize the influence of the press and would not incur its opposition and enmity in a labor of love for the public, unsupported by public sentiment. Being asked almost daily whether or not something may not be done to let people know that there is such a town as Reno, and to which we always respond yes, have concluded not to drop the question but to let rest the responsibility of non-action where it belongs, which is not in the GAZETTE office.

THE first page of this issue of the WEEKLY GAZETTE and STOCKMAN speaks for itself. In saying that the head which adorns the first page is the handsomest extant on the Pacific Coast, we but state the truth. The design, although original with this office, is the work of Mrs. Della C. Chamberlain of San Francisco, and in her handiwork is to be seen true artistic genius.

THE action of the British authorities at Mitchellstown last week, in assassinating a number of people, assembled for the purpose of giving utterance to the prerogative of mankind in all parts of the civilized world, namely, the discussion of ways and means of securing proper representation in the councils of their country, is only an additional proof that England is eager to precipitate a civil war with Ireland. The Irish leaders justly complain that they are refused privileges enjoyed under the most absolute monarchies, and the bloody ending of the Mitchellstown meeting demonstrated that under a Tory Govern-

ment free speech and the enjoyment of ordinary political rights are denied to the subjects of the country whose boasts in song and story is that "Britons never shall be slaves."

THE GAZETTE, Free Lance and Stockman are now combined in one paper with a circulation that among advertisers has no competitor in the State; its literary columns of editorials, dispatches, locals and stock and range news commend it to every family of this western country. It is, with the improvements continually making in its columns, just such a paper as people can with pride send away to friends.

Uncle Jimmy Talks

The following dispatch was received from San Francisco last night. It purports to be an interview with Senator Fair concerning his reunion with the Nevada Bank people.

He said that under him the bank would be conducted in a much more conservative manner. In fact, nothing but strictly banking business would be undertaken.

"Others may go in for speculation and see that they please," said he, "but the bank has no business to do so."

"What was the trouble, then, at the bank?"

"They got out of line, I suppose," was the Senator's unique answer.

"They did not need my help, but I suppose they did not have the round pieces in abundance that they ought to have had."

"It has been stated that you relish the position you now hold relative to your former associates."

The Senator laughed at the allusion and answered with a non-committal: "Well, I don't know."

"Did not the bank speculate in the wheat deal to a very considerable extent?"

"I suppose it is no secret that they were overloading on wheat, and that the funds were running out faster than they could afford or expected they would."

Electric Lights Galore.

The dynamo for the new electric light company, which will shortly arrive, will be temporarily placed in position at Beck's mill, where there is a never-failing supply of water. As soon as space can be made for it the dynamo will be removed to the gas works, where steam power will be utilized, and the company will be entirely independent of uncertain water courses for their motive power.

The Doomed Chicago Anarchists Decline to Talk.

THE YACHTING FIASCO.

They Make Another Fruitless Effort to Start To-day.

[PRESS DISPATCHES TO THE GAZETTE]

A Brilliant Pageant.

PHILADELPHIA, Sept. 15.—The last centennial of the events of the revolutionary years began this morning, and a heavy load was lifted from the hearts of many who have been for months looking forward to to-day, when the greatest epoch in the history of the last century should be celebrated in Philadelphia, and her hundreds of thousands of guests appeared on the streets early in their holiday garb, light-hearted and all toward the single object of making the celebration a fitting one. The streets presented an appearance lovely in the extreme. In all directions as far as the eye could see, was a mass of bunting and decorations. Many of the newspaper offices and public buildings made a lavish display, the decorators having worked early and late to complete their work in time. At daybreak this morning they were still putting the finishing touches on their work, which has been delayed more or less by the weather. Every arrangement had been made by those in charge, and the day was one of the most eventful in the history of the city. The morning started from Broad and Dauphin streets soon after 10 o'clock, and marched to Broad and Moore streets, a distance of nearly five miles, and then counted marched to the starting point, passing through one continuous line of observation.

The procession was intended to illustrate the advancement of industrial arts and sciences during the past century, and it is believed to have eclipsed anything of the kind ever known. There were in line 300 floats, each bearing a representation of some particular branch of industry; 12,000 men, 3,000 horses, and 150 bands of music.

The honor of leading the first division was given to the Patriotic Order of the Sons of America, who presented a beautiful display, headed by a richly decorated wagon bearing banners with mottoes emblematic of the order.

The scene at the grand reviewing stand, situated opposite the Union League Club house, on Broad street, just below Sanson, was a grand one. As the different Governors passed up or down Broad street, and were recognized, they received round after round of cheers and ladies and children joined in the greeting by waving hats, handkerchiefs and other tokens of affection.

The Constitution Central Commission was officially represented on the grand stand by Hon. John A. Kasson, President, and four other members, "coupled seats in front. The central position of the stand was reserved for the Governors of State with their staffs. On this stand were also Senators and Representatives in Congress, many of whom were present. The Commissioners of the various States and Territories, thirty-three in all, the Diplomatic Corps, the foreign consuls and plenipotentiaries, and the Commission occupied posts of distinguished visitors.

The condemned Anarchists.

CHICAGO, Sept. 15.—Late this afternoon the condemned Anarchists were allowed to take exercise in the covered jail of the court, and to speak to their friends, who were freely admitted.

The prisoners had agreed among themselves to talk to no one for publication, and all attempts to interview them were resolutely refused. At all police stations throughout the city a full force of reserves were on duty and were given to understand that they would be kept in barracks till after the execution. At intervals the men were made to fall in and drill with rifles.

The Arbeiter Zeitung, of which Spies, one of the condemned, was editor, in announcing the decision, says: "The Supreme Court in Ottawa, the legal instrument of capitalists, has affirmed the outrageous verdict which decided that seven of our best comrades shall suffer the death of martyrdom for the cause of the laboring people, and that the eighth shall serve a 15 years' sentence in the penitentiary. We are, however, the holders of Spies and his comrades and will not cry out for revenge at any opportune time, but we will do anything that remains to be done."

The Racing Yachts.

New York, Sept. 15.—Another attempt was made to-day to sail the first trial race of the series between the Volunteer and the Mayflower to decide which shall defend the American cup against the Scotch yacht, Thistle. The race is to be over what is known as the outside course, designed to test the ability of the racers in beating to windward.

An unusual calm prevailed all day. The Mayflower and Puritan were towed into position, but after waiting till nearly 3 p. m. for even a breath of wind, the attempt was abandoned. Another effort will be made to-morrow.

Northern Pacific Directors.

New York, Sept. 15.—A meeting of the stockholders of the Northern Pacific railroad was held to-day, and voted for a new Board of Directors for the ensuing year. Following was the only ticket in the field and is undoubtedly elected: August Belmont, Frank Billings, John V. Broman, Benjamin P. Thayer, Robert Harris, Thos. F. Oakes, Charles E. Wright, Henry Villard, Edward H. Abbott, Charles L. Colby and John B. Trevor.

A Protest Against Murder.

LONDON, Sept. 15.—Inspector Roughton, of the Kilkeny police, has resigned his office as a protest against the action of the police in shooting down people at Mitchellstown last Friday.

# Fate of a Negro Murderer.

DENVER, Col., Sept. 15.—Yesterday afternoon a negro cook named Joe Dixon, employed in a hotel at Beaumont, Oursay, Col., had a fancied grievance against Miss Ella Day, a waitress, and shot her four times, three balls taking effect in her arms and breast. Dixon was arrested and jailed. Reports reach here that early this morning a mob went to the jail for the purpose of lynching the negro. They captured the guard, but failed to get an entrance. They entered parts of the building with coal oil and set it on fire. The fire department came out and in an unsuccessful attempt to extinguish the flames drowned the negro, whose body was roasted in the burning building. The wounded girl is not expected to recover.

The Grand Army.

DETROIT, Mich., Sept. 15.—At this morning's session of the Army of the Tennessee, Toledo, September 15 and 16, were selected as the place and time for holding next year's reunion. Col. Gilbert Pierce with General S. D. Atkins as alternative, was chosen executor for that occasion. Cincinnati was selected as the permanent headquarters of the society.

Hon. T. E. Jones.—My Dear Sir: I have just received your letter of the 15th. Dr. McLennan has wonderful power. God knows what it is. But he was of great and singular service to me. Professor D. Gonzales, San Francisco, was given up by his physician to die of Supp'd Vitia (and Paralysis); was cured perfectly helpless to Dr. McLennan and cured; now says: "In less than one month I was enabled to resume my occupation as professor of music and violinist at the Tivoli Opera House, and ever since (for over three years) have continued in good health, without the slightest return of my weakness."

Dr. Henry Slade says: "My case was considered incurable by the best physicians, but Dr. McLennan restored me the use of my limbs in less than twenty minutes, being paralyzed for over four months."

Dr. J. Wilbur, M. D., M. R. C. S., now at Abbottford House, says: "My hearing is completely restored by Dr. McLennan's manipulation alone."

Dr. C. E. Davis, St. Helena, Cal., cured of nervous prostration, says: "After four days' treatment I was entirely relieved. I have now a good appetite and feel well."

Mr. C. W. Kennedy, Cloverdale, proprietor of the Nevada Hotel, says: "My daughter cured of spasms by Dr. McLennan, after the doctors had pronounced her incurable."

The WEEKLY GAZETTE AND STOCKMAN is issued from this office to-day. It appears with a new head-piece, which is about four inches in depth, extending across the sheet. GAZETTE AND STOCKMAN are on a scroll about one and a half inches wide, with two long streamers on either end. In the center is the monogram with words "The Weekly" above, and the word "and" below. The monogram is simple but very expressive; its center is the seal of Nevada with "Nevada" and "All for Our Country" plainly to be seen, even at a distance. Surrounding this are the seals of four other States and Territories, indicative of where the paper circulates, and comprising the whole of the sagebrush country; on top of this design, is the seal of California with "Eureka" uppermost; on the right that of Idaho, with "Salvo" appearing; on the left that of Utah with the bee-hive and the busy bees in sight; at the bottom of the design the seal of Oregon with "he Union" in bold letters, underneath which is "1859." As a whole the head was designed in this office, and the execution of the work was by Mrs. Chamberlain, of San Francisco, probably the finest engraver on this coast. The head is a work of artistic beauty, and adds much to the general appearance of the GAZETTE AND STOCKMAN.

**The Lane Hub.**

James McDermott, of Milford, Lassen county, accompanied by A. W. Lane, the inventor, will visit the State Fair at Sacramento where he will exhibit and have introduced, the Lane Hub, a most valuable invention and an article that is bound to become popular when its merits are understood by wagon and agricultural machinery manufacturers. Mr. McDermott will also visit Stockton and San Francisco and show up the hub. This hub is self-centered and nothing about it to ware out but the hole, when another of the number can be replaced in five minutes. This hub can be applied to any vehicle. All shrinkage in the tenants of the spoke or and looseness that might be caused from the use of the same can be taken up. This saves canvassing of spokes, which is equal to one time fling. The inside of hub is oiled, keeping it cool in any climate. This hub is also patented in Canada, France, Prussia and England.

**The Bad Man from Beowawe.**  
An individual who had evidently been indulging too freely in Carson muddle-head rushed into a crowded saloon on Commercial Row last night and declared in stentorian tones that he was a bad "buckaroo" from Beowawe, and a bruiser by birth, and would like to gaze at the color of the Renoite's top-knot who took issue with him on this proposition. While he was "declaring" himself an individual emerged from the club-room in the rear of the saloon, where he had just lost a month's wages (earned in a hay-field), walked deliberately up to the "buckaroo" and without a word planted his immense flat square on the latter's nose, causing the claret to flow copiously, and bringing into full view of the recipient seven million stars and two or three comets. As soon as he collected his scattered senses, the bruiser by birth, made his way for the door, and was seen of him he was headed in the direction of New York.

**After Thirty-Four Years.**  
Miss Annie Lindsay, sister of Col. Robert H. Lindsay, of Reno, arrived here last night direct from Belfast, Ireland. When Mr. Lindsay last saw his sister (in 1853) she was a little child, and when he went to the depot last night to meet her, he had no means of distinguishing her from the other lady passengers, and was in some what of a quandary as to how he would be able to identify her. While scanning the faces of the passengers, Mr. Lindsay was startled by the exclamation: "Why, Robert!" and an affectionate greeting. Miss Lindsay, having seen recent photographs of our fellow-townsmen, recognized his handsome physique at once. Miss Lindsay will make her future home in Reno.

**The Annexation Question.**  
The following correspondence is published in the Winnemucca Silver State. It is self-explanatory.

**Editor Silver State:** In a conversation recently with a prominent citizen of Western Nevada on the subject of the annexation of Idaho, he stated that the public debt of Idaho Territory amounted to over \$4,000,000, all of which would be saddled on Nevada in the event of annexation. I thought the gentleman must be mistaken, so to ascertain if such was the fact I addressed a note to Governor Stevenson, of Idaho, asking him to state the amount of the Territorial indebtedness, and the following is the reply:

BOISE CITY, Idaho, Sept. 12, 1887.  
G. R. Walker, Esq., Winnemucca, Nevada—Sir: The total debt of Idaho is a bonded debt of \$146,715 06. A sinking fund is provided for payment of interest and principal. Respectfully yours,  
E. A. STEVENSON.

**The Reported New Eldorado.**  
Mrs. Dr. Newlands, formerly of Virginia City, has been spending some days at her home and at Carson. Her mission has been to induce capitalists and expert miners to go to Esenada, the reported new Eldorado 110 miles south of San Diego. In a measure her mission has been successful. Among others who last evening accompanied her to the Mexican territory of famous richness was Dr. H. S. Herriek, of Carson, representing Richard Ker-man, T. B. Rickey and other Nevada capitalists. He said at the depot to a GAZETTE representative that he had plenty of money at his back should he find the country as reported.

**PERSONAL.**

Wm. Thompson, of Virginia, went to California last night. Henry Gets, of Gold Hill, was a passenger for the Bay last night. Alex Fraser, of Gold Hill, was a passenger on yesterday's west-bound.

Judge Messick was a passenger last evening from Virginia City to San Francisco.

Miss Havenor, sister of W. H. Havenor, arrived here Tuesday night from the East.

Frank Jackson and wife, of Gold Hill, passed through to the Bay on last evening's train.

A. O. Porter left on last evening's overland for the lower country on a two weeks re-creation trip.

C. C. Downing, of the Journal, was a passenger for California on last night's overland.

Miss Winnie Timmins, teacher at Golconda, is paying a visit to her sister, Mrs. Joe McCormack, of Reno.

Mr. Conder, Superintendent of the Verdi Mill, passed homeward on the west-bound train last night.

Roger Pendergast, foreman of the C. & C. mine of Virginia City, was a passenger for the Bay City, on last evening's train.

J. H. Wheland, who has been visiting Mr. Lew Stevenson for some time, departed for the Bay on last evening's train.

Mrs. Secretary of State J. M. Dormer and son passed through here last evening for San Francisco to be gone a week or so.

Senator Stewart was a passenger for the Bay last evening. On his return in a few days he will spend one day at our State University.

Mrs. C. S. Preble and three daughters, and her mother, Mrs. Thompson, left Reno last evening for San Francisco, where they will spend some months and probably the coming Winter.

Reverend T. E. Slason, business agent of the Methodist school in Inyo county, left here this morning for Independence. He says that the school is in a prosperous condition financially and the outlook for a goodly number of scholars promising.

**The New York Firemen.**  
The special train containing the veteran fire laddies of New York City passed Reno about 1 o'clock yesterday morning. On board the train were 106 veteran New York firemen, several of them accompanied by their wives, and 51 members of the Seventy New York Regiment band. In a baggage car fitted expressly for the purpose was "de massheen," which was built 52 years ago, and of which the veterans are excessively proud. It is beautifully painted, richly ornamental, and profusely decorated with ribbons and flowers. The old boys, many of whom are stiffened up with rheumatism, said they were very cordially received everywhere along the road, and they will ever cherish fond recollections of their trip across the continent.

**Hints to Builders.**  
We extract the following suggestions from an exchange. Inasmuch as there is a building boom in Reno just now, it would be well for builders to heed them.

Swing all doors to the right as you enter them; they are thus handled conveniently.

It is better to oil floors than to paint them; a monthly rubbing will make them as good as new.

Solids wall paper may be cleaned with dry bread carefully applied.

Leaks in sewer or plumbing pipes may be detected by injecting oil of peppermint into any portion of the apparatus.

Shellac and borax boiled in water produces a good stain for doors.

**A Valuable Tree**  
Six hundred dollars seems a large price for one cherry tree, but that was the sum paid for one in Santa Clara county. It was required to be removed to make way for the New Almaden railroad. The owner demanded \$900 for it; experts well appointed, and it was proved that the tree had for years yielded the owner crops of fruit which sold for sums equivalent to the interest on the amount claimed. By a compromise \$600 was accepted for the tree. This will give our Eastern friends some idea of the value of fruit trees and the profit derived from them in Santa Clara valley.

**Threw Aside Her Stick.**  
132 1/2 CHRISTOPHER AND 497 HUDSON STS., NEW YORK, February 12, 1884.

Allock's Porous Plasters have been a great comfort to me in Winter. I use them as chest-protectors; they break up a cold in a few hours if placed one on the chest and two under the shoulder blades.

Last Winter I was much crippled with rheumatism in my knee; I had tried different remedies without avail; then I covered the whole knee-joint with two Allock's Porous Plasters and kept them on for four days, when I changed them. I got better all the time, and in two weeks I was entirely well, and threw aside my stick.

MRS. S. FINKE.

**A San Jose Blaze.**  
A dispatch from San Jose announces that Mrs. H. Barnes' dwelling, on Fifth street, near St. James was burned at 8 o'clock Monday, with most of its contents. Loss about \$2,000. Mrs. Barnes swooned away soon after the fire broke out and remained in a comatose condition for some time, but no serious result is anticipated. Mrs. Barnes is the mother of Miss Frankie Barnes, a young lady well known in Reno. The fire originated from a defective flue.

**Ladies.**  
In delicate health and all who suffer from habitual constipation, will find the pleasant California liquid fruit remedy, Syrup of Figs, more easily taken, and more beneficial in effects than any other remedy. It acts promptly yet gently on the bowels, kidneys, liver and stomach, and does not sicken or debilitate. For sale by Wm. Pinniger, Reno, Nevada.

**Boy Run Over.**

The truth of the old chestnut that "accidents will happen in the best regulated families" was exemplified yesterday morning. While A. T. Rice, our genial dairyman, was going his daily rounds, little Georgie Tomamichel, son of the proprietor of the Wm. Tell House, ran in front of the horse, and before Mr. Rice could prevent it the boy was under the horse's feet. The lad was more frightened than hurt, sustaining but a few slight bruises. Rice, however, was so worried over the mishap that he served the balance of his customers with a double allowance of milk, and had it not been for a convenient well of pure water he would have been obliged to "skip" the tail end of his route.
